

See, listen, wonder:
The **SmartGuide 2** fulfills all the wishes
of modern visitor information.

MEDER SmartGuide[®] 2

CREATING EXPERIENCES TOGETHER
Wireless Guiding Systems

Our consultation function gives your guests the opportunity to ask questions at any time. At the same time enjoy the highest listening and speech quality even in noisy production environments. You can also use the feature to comment live on videos with behind-the-scenes views.

Group tours of your facility are fun and informative.

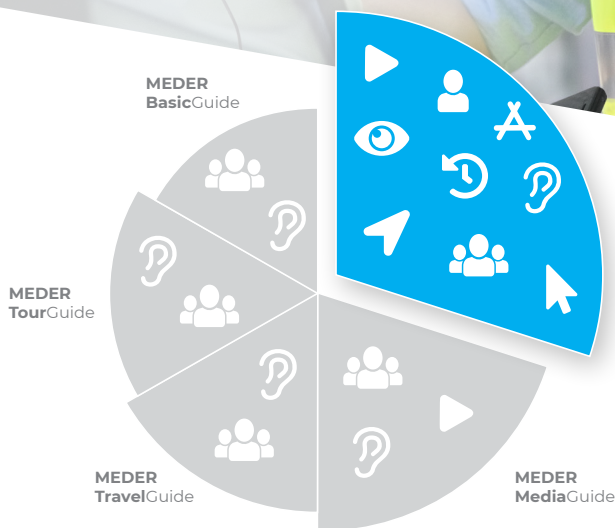

With the **SmartGuide 2**, your guests also have the opportunity to look behind the scenes.

Videos, images & audio files lead to a deeper understanding of your processes and make your leadership special.

The **MEDER SmartGuide 2** was specially designed and produced for demanding tours in factories and industry. It is robustly built and intuitive to operate. With our special charging technology, updates are also configured automatically.

MEDER SmartGuide 2

Our top product „SmartGuide2“ combines all features available on the market of guiding systems. This ensures a satisfying result for guided group excursions as well as for individual museum visits and for factory tours.
